

ENVIRONMENTAL COMMITTEE

The Environmental Committee remained active through 2006, focusing on green building initiatives and renewable resources, the new asbestos regulation, mould, and waste stream developments. In addition, an educational tip-sheet updating the membership on the new asbestos regulation and its implications was developed and distributed. The committee also monitored issues that included the possible impact of Bill 133 - the "spills bill".

The committee continued to address construction waste issues including cross border waste disposal to Michigan, and the purchase of Toronto's new proposed waste facility. Understanding Green Building, educating TCA members and communication with government will continue to be a mandate of the committee.

I would like to thank the committee members for their time and commitment as well as the staff of the TCA for their tireless support.

The Environmental Committee members are:

Romeo Milano (Chair)	Safetech Environmental Limited
Richard Maxwell (Ex-Officio)	Tonbridge Environmental Ltd.
Paul Barkovich	Defence Construction Canada
George Boire	Marsh Canada Limited
Paul Brander	AIM Waste Management Inc
