

## **GREEN BUILDING SUB-COMMITTEE**

### **MISSION STATEMENT:**

- **Not necessarily educators – the construction institute is here for that**
- **Direction on how to operate our offices in a more green manner**
- **“Demonstrate leadership and promote sustainability in the construction industry.”**
- **Greener ways to build buildings**
- **Social, economic, environmental**
- **Financial investments have the biggest impact on the operation of the facility – though important to the owners and operators, the impact is far more important**
- **Tours hearing from owners, contractors and suppliers**
- **Design, construction, operation**
- **Promoting sustainability within the construction industry**
  - **Promoting by word of mouth – contractors, builders and suppliers getting together to work out details**
  - **Lessons learned during the project – sharing these experiences**

**To provide industry leadership related to the design, construction and operation of sustainable buildings.”**

**Motion to adopt the statement – Patrick Kelly, seconded by Roger Willoughby and the motion was carried.**
